Figure 26: The room in terms of the functional zones connected with its objects by a hierarchy of areas. The surface of the table, which forms the base of the zone, can be seen around it, because it is the first stimulus to which the human eye is drawn. As soon as a cup of tea or coffee is set down on the table, they gather. The color of the table then manifest itself with greater ease in the environment of the room.

The room is in terms of the functional zones connected with its objects by a hierarchy of areas. The surface of the table, which forms the base of the zone, can be seen around it, because it is the first stimulus to which the human eye is drawn. As soon as a cup of tea or coffee is set down on the table, they gather. The color of the table then manifest itself with greater ease in the environment of the room.
